

# S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S.S.S. given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthy manhood or womanhood. S.S.S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S.S.S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free.

## STANDARD OIL DECISION DUE

COURT'S OPINION EXPECTED IN COURSE OF SIX WEEKS.

If Government is Beaten in View of Showing Made, It Would Be Blow to Anti-Trust Law.

GOVERNMENT IS HOPEFUL.

Washington, Aug. 19.—A decision in the cases involving the dissolution of the Standard Oil company is expected by department of justice officials in a month or six weeks. They believe it will be favorable to the government and that a death blow will be given Standard Oil.

The suit was brought in the United States circuit court at St. Louis because of a determination of President Roosevelt to "smash Standard Oil." It was prosecuted by Frank B. Kellogg, special counsel for the government, and submitted to the court about April 15 last. Mr. Kellogg was hopeful for a decision before the court took its summer recess. There is reason to believe a decision will not be long delayed after the court meets September 1 for the fall term.

The decision of the case will be followed by an immediate appeal to the supreme court of the United States, no matter which side wins. Under the law the appeal will lie to the supreme court and not to the circuit court of appeals. No reason exists why the controversy should not be fought through to a final decision in the supreme court, the highest tribunal, before many more months.

The government officials are hoping to win the suit begun at St. Louis. They are confident that the decision will be in their favor. The suit was begun against the Standard Oil company of New Jersey, to enjoin it as the holding company from holding control of the various corporations which go to make up the giant combination embraced within the meaning of Standard Oil.

Would Be Severe Blow. If the government should be beaten in the case in view of the showing made, it would be a paralyzing blow at the Sherman law, and at the power of the government over great combinations of capital. Frank B. Kellogg has done a work of great proportions in making the fight against the Standard. The record in the case consists of 21 large cloth-bound volumes. The government's brief in the case consists of three large volumes.

There has been some talk of the disposition of this administration to drop the prosecution of this and other anti-trust cases. No good reason exists for the belief that the administration does not intend to press the Standard Oil cases. On the contrary there is every reason to believe that the government expects to win in the court below and to fight the case through without relenting until a decision is had in the supreme court.

DIES BROKENHEARTED.

Basil Hayden of Nelson County, Ky., Follows Girl He Loved for Many Years.

Louisville, Ky., Aug. 19.—News has come to this city of the death at Greenbrier, Nelson county, of Basil Hayden, who had not stepped outside the picket fence bounding his yard since President Lincoln freed the slaves. It was not resentment at this act that caused Hayden's seclusion, for neighborhood tradition is that he shut himself in a little room that day in 1863, after his sweetheart died, and looked no more upon men. An overseer of Hayden's estate, named Borders, was the only human being whom the anchorite saw and Borders has declared that the words which he exchanged with the recluse in a score of years can be enumerated upon his fingers. Borders took care of Hayden's property until a mistake in accounting made by a bank clerk exasperated the hermit, and thenceforth penuriousness having gripped him, he hid an estate which will amount to nearly \$100,000, in chinks and pillow slips and cast-off clothing.

SMITH & DAVIS LEASE NOT DISTURBED, AS ANNOUNCED.

In giving an account of Dr. Neville leasing the second floor of the Gilbert drug store at Fourth and Broadway yesterday afternoon. The Sun included the office rooms of Davis & Smith and a pressing club, which was a mistake. The second floor of the building is occupied only by Dr. Robertson, while Davis & Smith have rooms in the adjoining building, owned by Mrs. James Sevier. This firm will remain where it is at present.

CAPTAIN WM. KRAUSE PARTIALLY PARALYZED

Captain William Krause, formerly city treasurer, who now resides in Chattanooga, Tenn., has been partially paralyzed according to the word friends have received. He is unable to use the right side of his body, and must write with his left hand. He has many friends in the city who will regret to learn of his condition.

## FAKE HAIR PREPARATIONS

Do Hair No Good, But Often Cause It to Fall Out.

Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle, and, finally, lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes cuticle scales as it digs to the root of the hair, where it destroys the hair's vitality, causing it to fall out. To cure dandruff, the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ, thereby leaving the hair to grow luxuriantly. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. \$1.00 bottles guaranteed. R. W. Walker Co., Special Agents.

## ONE BIG AUTO CRASHES INTO ANOTHER TODAY

A prominent business man of Paducah came bowling along in his 6-cylinder Ford this morning down Broadway, about 7:30 and enclosed himself in a dangerous trap. It seems that another large 6-cylinder Ford, without any occupants, was left on the side of the street, and at the critical moment when auto No. 1 attempted to pass auto No. 2, a carlog was hopeful for a decision before the court took its summer recess. There is reason to believe a decision will not be long delayed after the court meets September 1 for the fall term.

PECULIAR PRANK OF SPARROW

Flew Into Mouth of Atlanta Fan, Who Was Rooting for Home Team

Atlanta, Ga., Aug. 19.—While he was "rooting" loudly for the home team at a critical stage of the game between the Atlanta and Birmingham baseball teams yesterday afternoon, a tiny English sparrow flew into the wide-open mouth of "Billy" Wells, one of the most loyal fans in Atlanta.

The sparrow flew into the grandstand when the "rooting" was vigorous, and was greatly bewildered by the noise.

It flew hither and thither aimlessly, and entered Wells' mouth as the latter had stretched it to its capacity in order to cheer the locals.

The yell Wells intended to give never came, for it was blocked by the sparrow. As Wells started to close his mouth the sparrow retreated, leaving some of its tail feathers between Wells' teeth.

A little thing like a sparrow flying into his orifice of speech didn't bother Wells, as he resumed "rooting" at the same old stand after he had removed the feathers.

HOW GERMAN RIVERS USED.

Tonnage Will Be Revealed to the Waterways Commission.

Berlin, Aug. 19.—Consul-General Thackara has collected a great quantity of original information for the convenience of members of the national waterways commission, and arrangements have been completed for a study of the German system of interior water routes. The commissioners will meet the Prussian ministers of public works and visit the important canals and river improvements of the empire.

They will see the streams of Germany crowded with craft whose aggregate tonnage reaches nearly 60,000,000, more than twice as much as the ocean going tonnage of Germany.

If matrimony doesn't make a woman wise there is no hope for her.

## A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A fire insurance policy is such a promise. Ought you to accept it without knowing all about the company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.

## GREAT STRIDES IN THE LAST 12 YEARS

AGRICULTURAL DEPARTMENT'S YEAR BOOK OUT—FARMER MOST PROSPEROUS.

In Ratio to Population, Which Insures That Americans Will Never Starve—Trade Gerw 75.7 Per Cent.

THE PRODUCTION INCREASED.

Washington, Aug. 19.—During the last twelve years, the period covering the administration of Secretary Wilson of the agricultural department, the balance of trade in the United States increased from a yearly average of \$234,000,000 to \$411,000,000, or 75.7 per cent, according to the department's year book just made public.

This wonderful development is only in keeping with the progress made along all lines of the agricultural activity. At the same time, it is stated, many conditions affecting the lives of the farmers of the country have advanced in even greater ratio until many undesirable features of farm life have been eliminated. "So increasingly disposed has the public been to ask and receive the aid of this department, and so large have been the new fields of work assigned to it by congress," says Wilson in a resume of his work. "That the number of employees increased from 2,444 on July 1, 1897, to 10,420 in 1908."

Many innovations have been introduced and developments into the potential forces for the betterment of farm life during this period, says Wilson. The entire system by which the work of the agricultural department has been operated has been changed. Never before has the work of the state agricultural colleges and experimental stations been so intimately related to the department as now. During these twelve years there has been a great diversification and geographic extension of the products, apart from the cultivation of new land. Although there has been a decreasing production per acre of what was only recently virgin soil, there was an increased production per acre of the entire country. The yield per acre of cotton during the ten years ending 1906 was from a mean of 172 pounds per acre during the preceding ten years to 191 pounds.

Other crops have kept pace with cotton. Within ten years the production of corn per acre in Ohio increased 17.5 per cent. Oats increased 17.9 per cent in Indiana. Wheat increased 16.2 per cent in New York and 45.9 in Nebraska. Similar advancement was made in the yield per acre of other products.

Citing the increase in population based upon the families of native born, Wilson declares that no one need have fear that the farmers of this country will ever be unable to provide for its population.

From 1895 to 1906, Wilson says, farm wages increased faster than did prices. In the matter of wage increase, the farm laborer has fared better than the workman employed in the manufacturing and mechanical industries.

"The farmer," he says, "in results of information, intelligence and industry, has thrived mightily. The progress that has been made in this direction is leading to the popular and national welfare, to the sustenance of any further population, as well as to the large efficiency of the farmer in matters of wealth production and saving, and in establishing himself and his family in more pleasant ways of living."

HOME BEST FOR HIM

Says E. H. Harriman Just Before Leaving Europe for America.  
Paris, Aug. 19.—E. H. Harriman left Paris today on a special train for Cherbourg, where he will embark for New York on the steamer Kaiser Wilhelm III.

He informed the newspaper men that he was going to his home at Arden to rest and complete the cure inaugurated in Europe. He said also that he had no immediate intention of resuming his business activities.

"Home is the best place to rest, after all," he said.  
Dr. Lyle, Harriman's physician, who accompanies him, declared that if Harriman is weaker it was an effect of the rigid treatment he had undertaken at Bad Gastein.

G. A. R. FLAG STOLEN.

Has Been Missing Since the Parade in Salt Lake City on August 11.

Salt Lake City, Aug. 19.—The standard of the Grand Army which has carried for the past twenty years by Commander-in-Chief of the Grand Army and has been the official banner of every encampment since 1889, when it was presented to the Grand Army in Milwaukee, has been missing since the parade of August 11, and it is feared it has been stolen.

Most men are bad; whatever good thou doest, ascribe to God.—Dionogenes.

—Don't fail to see Emerson's show boat Monday, Aug. 23.

## MAYFIELD FOLKS OFF YESTERDAY FOR CHICAGO

Mayfield, Aug. 18.—One of the largest crowds that ever left here on an excursion left yesterday morning at 6:48 for Paducah, there they took the excursion train to Chicago at 9:30. Mayfield and Graves county will certainly be well represented on this great annual excursion. Following are the people who left: W. T. Lowe and wife, Ed Buckman, E. F. Cash, Claude Winslow, R. O. Dossell and wife, J. R. Watts, A. D. Bagwell and wife, G. H. Parsons and wife, J. R. Lemon, Elmer Albritton, R. M. Edwards, Mrs. Toy Fields, Milton Jones and wife, Lono Albritton, Jim Carter, Lee Yates, T. J. Carman and wife, J. S. Hudspeth, W. S. Riley, Henry Riley, E. E. Smith, B. P. Smith, J. O. Byrn, Albert Byrn, Miss Eudy Hudspeth, H. B. Sullivan, R. T. Cobb and two daughters, of Farmington; J. M. Pryor, wife and two daughters, Mrs. Edgar Fields, L. L. Potts, Felix Campbell, Lennie Wilson, Walter Ellis and wife, Misses Opal Payne and Sammie Cox, Mrs. J. A. Dulaney, J. L. Wreather and wife, Car. Brown Clifton Baker, Everett Hollifield, Mr. and Mrs. N. A. Hale, Mrs. R. E. Johnston, Lee Mason, J. M. Wilson and wife.

In a bachelor's flat each chair has its history and each divan could write a story—From the Florist's Shop, Oliver Herford's new play.

## PLEA FOR HEROIC CONVICT SENT TO PRESIDENT TAFT.

Officials and Citizens of Atlanta Forward Petition for Pardon of Man Who Risked Life for Others.

Atlanta, Ga., Aug. 18.—A remarkable petition for the pardon of a convict serving a life sentence for wife murder has been forwarded to President Taft. Thomas J. Taylor, who killed his wife in Washington fourteen years ago, is the man for whom clemency is asked, and the petition is signed by officials of the penitentiary and citizens of Atlanta.

The main point on which the petition is based is that Taylor has been sacrificing himself for his fellow convicts since his confinement. During the epidemic of smallpox in the penitentiary it is said Taylor risked his life for those who were stricken. Taylor killed his wife because he found her with another man. He was sentenced to be hanged, but Grover Cleveland commuted his sentence to life imprisonment.

Signs and Superstitions.

The odor of gasoline on the midnight air is an invariable sign that somebody somewhere is out after dark in an automobile.

The Venezuelans believe that the odor of cauliflower penetrating all parts of a dwelling house before midday is a sure sign that before the day is over this vegetable will be served at one of their daily meals. Judge.
